

System Assembly/Installation and Training

SMARTfit's Neuro-Cognitive Gym offers a feature-rich cognitive-motor assessment, training, and programming solution for every demographic in rehab and performance spaces.

The more you and your staff understand the full capabilities of SMARTfit technology and its ease of implementation through the SMARTfit app, the more you and your clients, patients, or members will benefit from it. We're committed to your success and have learned that comprehensive training makes a huge difference, so we encourage you to take advantage of all we offer. Your SMARTfit consultant will work with you to customize a cost-effective training program and schedule that meets your needs.

It starts with a game that triggers the desire to play. Then, through engaging repetition and progressive cognitive demand powered by the desire to achieve, it rapidly develops physical, cognitive, and dual-task skills to improve human performance at all levels.

Measure

- Initial and Follow-up Training
 - Zoom Training (up to 5 hours) - \$500
 - Live Training - \$2,100 in the continental USA for one day (5-6 hours). \$800 for each additional day. All other markets quoted based on travel requirements.
- Future Training via Zoom- \$500 for 5 hours, \$900 for 10 hours.

On-Wall Systems - Installation and Training

On-wall systems require installation by a qualified person(s) with construction expertise.

NOTE: *To ensure long-term customer satisfaction and guarantee product warranties, SMARTfit, Inc. has provided detailed written and video instructions in the Customer Support sections of our website that must be followed to ensure safe and durable installation. Failure to follow such instructions will cancel warranty and the company takes no responsibility for damage resulting from such installations.*

Systems can be installed on concrete, block or stud walls. Those being installed on stud walls require a plywood backing which will need to be installed prior to installation. If installed on uneven brick, concrete or block walls, we suggest doing the same. This ensures the SMARTfit system will attach to the wall safely.

On-site Installation and Training Fees for SMARTfit On-wall Systems

Fees are for the continental USA and include one day training (5-6 hours). \$800 for each additional day. All other markets quoted based on travel requirements.
